Alan -- attached is Cadista's motion to compel; Epic's opposition and Cadista's reply. Below is the email message from my partner to Aaron and Tim, along with his contact information. As we discussed, understanding that you are just arriving in this case, we need to have this conference in the next 48 hours. In all candor, it appears from Epic's opposition that Epic is not going to produce any more documents; if that is the case, we should tee this up for the Court. les.
